NEED FINANCIAL SUPPORT? **PROVENGE** HAS YOU COVERED

**Almost 70% of patients receiving
PROVENGE are expected to have
minimal to no out-of-pocket costs¹**

There are many types of insurance, so be sure to speak with your doctor's office to help you throughout the financial process. You can also get more information about your coverage, as well as whether you are eligible for additional financial support during treatment with PROVENGE, by calling Dendreon Financial Services at 1-877-336-3736.

PROVENGE is covered by Medicare
as well as most other commercial plans.
Learn more about **PROVENGE**
coverage at www.PROVENGE.com.

Coverage information is current as of March 2014. Your insurance coverage will be dependent upon several factors such as where you live and your health plan's insurance benefit design. Please contact 1-877-336-3736 or your plan administrator for more information.

THESE QUESTIONS WILL HELP YOU TALK TO **YOUR DOCTOR**

- Based on my current symptoms, is PROVENGE right for me?

- What are the advantages of taking PROVENGE?

- Does PROVENGE have any side effects?

- How is PROVENGE administered and how long does it take?

- Do I need to get bone scans or other tests before my course of treatment with PROVENGE?

- Does your office administer PROVENGE? If not, do you recommend an oncologist that does?

IF YOUR DOCTOR ISN'T
EQUIPPED TO PROVIDE
PROVENGE, DON'T WORRY

Some doctors cannot provide PROVENGE because they may not have the facilities available to them. If your doctor is not equipped to administer PROVENGE, ask to be referred to an oncologist or urologist who is able to provide the treatment.

Notes and additional questions:

PROVENGE[®]
(sipuleucel-T)

INDICATION:

PROVENGE® (sipuleucel-T) is an autologous cellular immunotherapy indicated for the treatment of asymptomatic or minimally symptomatic metastatic castrate-resistant (hormone-refractory) prostate cancer.

Before getting PROVENGE, tell your doctor if you:

- Have heart problems
- Have lung problems
- Have a history of stroke
- Take any other medicines including prescription and nonprescription drugs, vitamins, and dietary supplements.

What are the possible side effects of PROVENGE?

PROVENGE infusion can cause serious reactions. Tell your doctor right away if you:

- Have breathing problems, chest pains, racing heart or irregular heartbeats, high or low blood pressure, dizziness, fainting, nausea, or vomiting after getting PROVENGE. Any of these may be signs of heart or lung problems.
- Develop numbness or weakness on one side of the body, decreased vision in one eye or difficulty speaking. Any of these may be signs of a stroke.
- Develop symptoms of thrombosis which may include pain and/or swelling of an arm or leg with warmth over the affected area, discoloration of an arm or leg, unexplained shortness of breath or chest pain that worsens on deep breathing.
- Get a fever over 100° F, or redness or pain at the infusion or collection sites. Any of these may be signs of infection.

The most common side effects of PROVENGE include chills, fatigue, fever, back pain, nausea, joint ache, and headache.

These are not all the possible side effects of PROVENGE treatment. For more information, talk with your doctor.

Call your doctor for medical advice about side effects. You may report side effects to the FDA at 1-800-FDA-1088 or www.fda.gov/medwatch.

For more information on PROVENGE, please see the Full Prescribing Information or call 1-877-336-3736.
